Pure Connect App update available for Apple and Android to allow streaming of music and audio files direct from your PC, Mac or NAS box

Pure Support - UK - 2015-06-24 - [Apple\ Android Pure Connect App](#)

Pure Connect App update available for Apple and Android to allow streaming of music and audio files direct from your PC, Mac or NAS box

We have added the ability to access local content. Put simply this means you can stream music and other audio files from your PC, Mac or NAS box just by using your Apple or Android device as a controller.

As this has now been released and you should have seen an update notification on your device.

To make sure you are on the latest version please check the Apple App store or Google Play.

There is a little bit to do to get you streaming your local content so to help you please click [here](#) if you are a PC user or [here](#) if you are a Mac user
